PROFESSIONAL EXPERIENCE

Internship Coordinator

2018 - Present

Boone NC

For the Department of Government and Justice Studies and Appalachian State University: Advises over 200 students a year on the process of securing a political science, public administration, or criminal justice internship. Generates an average of 60 internship contracts a semester. Serves as faculty supervisor for 30 – 40 interns each semester. Develops internship policy, training materials, and course content. Grades weekly internship reports, final research papers, and internship posters. Coordinates career fairs, mock interviews, and other professional development opportunities each semester. Maintains internship webpages and AsULearn pages. Explores and nurtures relationships with prospective and current internship agencies. Conducts internship site visits.

Nonprofit Co-Founder and Management Consultant

2009 – 2017

Boone, NC

Served as board member for One World Everybody Eats, a global network of over 60 pay-what-you-can community cafes that addresses food insecurity and incorporates innovative resource

and human capital management. Served as vice president of F.A.R.M. Cafe (Feed All Regardless of Means) board of directors during organization planning and establishment. F.A.R.M. Cafe was recently mentioned in the Wall Street Journal as a must-stop on a culinary road trip through Appalachia. Provides consulting, program evaluation, and training to nonprofits in various stages of start-up and operation.

Small Business Owner and Operator

2007 – 2011

Boone, NC

Founded and operated Bright Copper Kettles Personal Chef Service, providing gourmet private and personal chef services to clients in a three-county area and working with local nonprofits on hunger solutions.

Management and Policy Analyst

1994 – 1995 and 2004 – 2006

Arlington, VA

For the Assistant Secretary of the Navy (Installations & Environment): Hand-picked for the Navy's base closure teams, charged with infrastructure management and strategic sourcing analysis and policy determinations. Solely responsible for analyzing and defending 4 closure recommendations, including cost-benefit and impact analyses, which were eventually approved by Congress. Compiled, evaluated, and translated prodigious amounts of data into dozens of closure, organizational change, and policy recommendations. Developed conceptual models and data collection methods; participated in site training visits; conducted excess capacity, ROI, and quantitative analyses; drafted and edited public correspondence; prepared and presented PowerPoint and other briefs and findings to senior officials; and utilized analytical software.

Plans and Policies Director, Program Manager, and Manpower Officer

2001 – 2004

Arlington, VA

For the Chief of Naval Operations: Managed test and evaluation planning of 21 enterprise, HR, and automated information system programs. Fostered collaboration and mediated disputes between developers, testers, and stakeholders to ensure timely introduction of programs. Drafted technical reports of evaluation findings. Designed, administered, and manipulated complex data base to account for testing and evaluation of 300 programs.

Business Process Reengineering and Management Analysis Officer

1997 – 2001

Arlington, VA

For the Office of the Secretary of Defense (Joint Requirements and Integration Office): As one of the Navy's top HR technical experts, chosen to serve as member of joint-service team which carried out functional analysis and BPR of the DoD integrated HR system. Conducted training of subject matter experts, led data collection workshops during site visits, undertook extensive research and literature/policy review, utilized numerous process improvement methodologies, led team modeling efforts, and developed detailed reports and recommendations. Evaluated proposed revisions to existing policies based on organizational trends and drafted new policies which resulted in business rules and use cases for inclusion in deliverables.

Officer in Charge and Project Manager

1995 – 1997

Indianapolis, IN

For Personnel Support Activity Detachment, Indianapolis: Responsible for all operations to provide pay, personnel, advancement testing, travel, manpower, administrative, and HRIS support to over 5,000 military and civilians in a 5-state area. Supervised and trained over 25 military and civilians. Upon announcement of unit closure, developed, implemented, and coordinated exhaustive year-long plan of actions and milestones and managed project to close the detachment and transfer all services without disruption to customers.

Acquisition Officer and Contracting Officer's Technical Representative 1992 – 1994
Washington, D.C.

For the Defense Intelligence Agency: Managed the Agency's \$1M Blanket Purchase Agreement Account to meet high-priority technology requirements serving over 100 customers. Performed ADP equipment acquisition, contract administration, quality control, and customer service, ultimately receiving over \$10M worth of ADP property. Developed and administered plan to receive, store, and account for over 700 computer systems valued in excess of \$4M. Supervised and trained 5 military and civilian while also administering several multi-million-dollar acquisition contracts and accounts for Agency program systems. Project manager for implementation of Navy's performance appraisal software within the agency.
